Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This Office action is in response to the amendment filed November 24, 2003.

1. Claim 3 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 3 depends from cancelled claim 1. Correction is necessary.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 3 and 5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by PAPPAS et al.

The claimed invention is drawn to a lithographic printing plate precursor comprising a support having a hydrophilic surface having provided thereon an image-forming layer containing a hydrophobic high molecular compound having at least either a functional group represented by formula (1) or a functional group represented by formula (2):

PAPPAS et al anticipates the claimed invention at Examples 1-5 wherein the recited hydrophobic high molecular compound is met by the diazo adduct which is a reaction product of a sulfonated polymer and a diazo resin. The diazo resin having cationic side groups of diazonium meet the claimed ion as recited in claim 1.

Art Unit: 1752

Furthermore the methoxyethanol and the n-propanol as seen in the Examples meet the claimed compound having a functional group defined by formula (3) or (4).

The arguments and amendment have been carefully considered, however the rejection remains wherein new claim 5 continues to be anticipated by the prior art disclosure of PAPPAS et al. The claims now specifically recite a diazonium compound of Formula (7) which applicant argues is not disclosed in the prior art. Prior art Example 2 teaches and discloses a condensation product of paraformaldehyde and p-diazo-diphenylamine combined with a sulfonated copolymer. This diazonium functional group clearly meets the diazonium compound of Formula (7), when the functional groups listed in new claim 5 are selected. The amendment fails to place the case in condition for allowance and fails to overcome the prior art of PAPPAS et al.

The rejection is repeated and made final.

5. The disclosure is objected to because of the following informalities: The claims page of the amendment inadvertently states the status of claim 3 as "Withdrawn", see the last Office action and the restriction for the group of claims wherein the current status is active as the elected invention for prosecution.

Appropriate correction is required.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 1752

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
